Regulation (EU) No 305/2011-Construction products

TEST REPORT No. 15/971-1a

Date: 10.09.2015.

Customer: LLC "PRE "UKRMAGNESIT".

Order: 17.08.2015.

Information of testing samples:

Date of samples delivery	Date of testing	Testing object	Customer samples No. (code)	ID of samples for laboratory
17.08.2015.	17.08.2015.- 02.09.2015.	Magnesite board	Standard Premium	15/6241-15/6245 15/6253-15/6257

Obtaining the samples is the responsibility of the customer.

Customer information: Magnesite board.

Information of samples: Size of samples 500x400x10mm (10 samples), samples without defects.

Test carried out according to LVS EN 12467:2013 requirements.

Condition of testing: air temperature +22°C, relative air humidity 56%.

Equipment used for testing: Square, Scale, metal rule, smooth.

Test results.

1. Determination of water absorption and deviation from flatness for magnesite board samples.

ID of samples for laboratory	Customer samples No.(code)	Deviation from flatness, mm	Water absorption, %	Thickness swelling, %
15/6241	Standard	Thickness deviation 0.01mm Length deviation 0.03mm	20.1	No changes in thickness
15/6242			22.9	
15/6243			20.1	
15/6244			21.2	
15/6245			20.2	
Average			20.9	
15/6253	Premium	Thickness deviation 0.01mm Length deviation 0.03mm	14.8	No changes in thickness
15/6254			14.3	
15/6255			14.1	
15/6256			14.9	
15/6257			15.0	
Average			14.6	

This test report contains experimental results from the BTL testing record No 15.761.

The test results are valid only for this tested samples batch.

All test report and it's parties can't be reprinted without laboratory written consent.
